# DARK CHAMBERS

You're on a dangerous treasure hunt, deep in the underground world of Dark Chambers. Whistles, screams, and moaning skeletons surround you. As you move through this maddening maze, you are stalked by the grim reaper.

The exits you see only take you deeper into the maze. If you find the strategically placed weapons, you can fend off your enemies while you search for the hidden treasure. The secret potions you find along the way will restore your strength. But watch out for hidden traps and deadly poisons.

Your strength will help you outlast the weaker ghosts, but are you a match for the stronger? Enter the underground world of Dark Chambers and find out.

1. Turn on your television, and press the **[Power]** key to turn on your Atari console. The Dark Chambers title screen will appear.
2. Press **[Select]** to choose a skill level and the number of players (one or two). Or move the left controller right or left to select the skill level, move the controller up or down to select the number of players.
3. Press the fire button or **[Reset]** to start the game.
4. Press **[Select]** at any time to return to the title screen and start a new game.
5. When a game is over, press the fire button or **[Reset]** to start a new game.

## Getting Started

1. With your Atari 2600 set up, insert the Dark Chambers cartridge into the console. Plug a controller into the left port on the front of your console. For two players, plug another controller into the right port.

## Playing the Game

You are lost in Dark Chambers. Enemies, treasures, and curses are scattered throughout all levels from A to Z. Your goal is to survive all 26 levels and maybe beyond.

# The Darkness Is Upon You

while using as much treasure as you can. You can descend from one level to the next only by finding the escape holes.

Your enemies, the dangerous ghouls, are everywhere. At times, they'll chase you. Other times, they'll back off. Don't let this fool you, though. It's just a ploy to lead you farther from the escape holes.

Use your controller to move through the chambers. Go through the escape holes to move on to the next level (in a two-player game, you won't be able to walk any farther than you can see unless your partner goes with you.)

Search each chamber for treasures and weapons. Pick them up by walking over them. The treasures and weapons you pick up will appear at the top of the screen next to your strength bar.

Stay away from the cursed traps and poison. If you touch them, they'll take away some of your strength.

Ghouls drain your strength by touching you. You shoot them by

moving your controller in their direction and pressing the fire button. Be careful, though. You can't walk while you're shooting. Ghouls will use that time to move in and touch you.

Potions and food are also hidden in the chambers. When you find one, pick it up to renew your strength. A bar at the top of the screen shows you how much strength you have left.

Find the hole to escape from a level and descend to the next one. As long as you have strength left, you can go through all 25 levels. If you lose all of your strength, you collapse and the game is over.

In a two-player game, if one hero collapses, the other player must find a heart and shoot it. This will revive the hero who collapsed.

## Weapons and Treasures

Use weapons, potions, keys, and holes to help you outsmart the ghouls while you search for treasure.

**Hint:** If you find a weapon on another level that is like one you have already acquired, shoot the weapon for bonus points.

**Guns** increase your shooting speed.

**Daggers** make your shots more powerful.

**Shields** minimize the amount of strength you lose when an enemy touches you.

Let off **bombs** to stay off ghosts and curses in the area you're in. Grab the bomb and press the right fire button. Or you can carry up to 15 bombs and detonate each one when the time is right.

**Be Careful:** You can also detonate a bomb by shooting it.

Pick up **potions** and **food** to increase your strength. (When your strength bar is full, you don't need the potions.)

The more **keys** you pick up, the more doors you can unlock to enter secret rooms. Each key unlocks one door and is worth 100 points. You can carry up to 15 keys.

**Halls** lead to the next level.

**Locks** open secret rooms.

Grab **strongmen** whenever you see them to earn points.

Snatch the valuable **jewel** **anelars** to increase your score.

**Chalice** have been hidden throughout the chambers. Although the silver ones are worth a lot, the gold ones are the most valuable treasure of all.

**Hearts** are hidden throughout the chambers. But shoot a heart only when your hero friend needs it. Otherwise the heart will turn into an underground spawner!

## Ghosts and Curses

The inhabitants of Dark Chambers drain your strength by touching you. When shot, they inspire to the next weaker form.

**Zombies** are the weakest form of ghost. They explode when you slay them.

**Bone-shaking skeletons** cover your side

**Wraiths** try to scare you to death

**Wizards** hate live heroes. They attack without mercy

**Grim reapers** are the strongest form of ghoul. They'll slice you down if you let them get close

**Spawners** hatch new ghouls. There are five kinds of spawners capable of producing different levels of ghouls. Shoot the spawners to upgrade them to the next weaker level of spawner. Watch out, though. The underground spawner is indestructible.

Watch out for deadly **petri**. They'll drain your strength.

**Traps** have been laid for you. They, too, will sap your strength. The glowing ones are the most dangerous!

## Scoring

Scores appear at the top of the screen, next to your strength bar.
